Lickey Hills Country Park New Play Area Proposals

Public Consultation

We are delighted to showcase our exciting new proposals for play at the Lickey Hills Country Park.

The existing play area is no longer fit for purpose and its location suffers from regular flooding and poor accessibility. A brand new, all-age, fully inclusive play area is being designed to be located next to the Visitors Centre. Additional opportunities for play as well as a new outdoor gym facility are proposed as part of future phases of work, as and when funding becomes available.

Please take a look at the current proposals, we would love to know what you think!

Potential stone retaining wall/seating area with new safety surfacing

Potential future double zip wire
