

A457 Dudley Road Improvements: Scheme Summary

Zone A – Shenstone Road to Bellefield Road

Changes to parking and waiting restrictions to allow short stay parking (one hour, no return within one hour) between 7am and 1pm on the south side and between 1pm and 7pm on the north side. Parking is unrestricted between 7pm and 7am.

Zone B – Bellefield Road to Northbrook Street, incorporating Winson Green Road and Heath Street to the north

New segregated, two way cycle routes on Winson Green Road and Heath Street. New two-way cycle route on Dudley Road (some fully segregated, some shared space with pedestrians).

Improvements to the signalised junction of Winson Green Road and Heath Street, including upgrade to Toucan crossings (for pedestrians and cyclists).

Improvements to the signalised junction of Dudley Road, Winson Green Road and Icknield Port Road, including upgrade to Toucan crossings (for pedestrians and cyclists).

Improvements to the signalised junction of Dudley Road and Heath Street.

Closure of vehicle access to Northbrook Street from Dudley Road. Access maintained for pedestrians and cyclists.

New inbound (towards city centre) bus lane on Dudley Road, operational between 7am and 1pm.

Changes to parking and waiting restrictions to allow short stay parking (one hour, no return within one hour) between 7am and 1pm on the south side and between 1pm and 7pm on the north side. Parking is unrestricted between 7pm and 7am.

Zone C – Northbrook Street to Spring Hill bridge

New segregated, two way cycle route on Dudley Road.

New bus lanes on Dudley Road. Inbound (towards city centre) direction operational between 7am and 1pm. Outbound (away from city centre) direction operational between 1pm and 7pm.

Upgraded crossing outside St Patrick's school to Toucan crossing (for pedestrians and cyclists).

Improvements to the signalised junction of Dudley Road, Western Road and the entrance to the Soho Loop development, including upgrade to Toucan crossings (for pedestrians and cyclists).

New pedestrian and cycle bridge over the canal alongside the existing Spring Hill bridge.

Zone D – Spring Hill bridge to Spring Hill roundabout

New segregated, two way cycle routes on both sides Spring Hill. Very short new section of segregated, two way cycle route to link Ellen Street and Hingeston Street.

New bus lanes on Spring Hill. Inbound (towards city centre) direction operational between 7am and 1pm. Outbound (away from city centre) direction operational between 1pm and 7pm.

Upgraded crossing between Steward Street and George Street West to Toucan crossing (for pedestrians and cyclists).

Zone E – Barford Road estate

Closure of vehicle access to Northbrook Street from Dudley Road. Modal filter on Northbrook Street north of Coplow Street, meaning motorised vehicles cannot drive through. Junction of Barford Road and Northbrook Street opened to vehicles. Full access maintained for pedestrians and cyclists.

Raised road surface at key junctions to slow vehicles down as they approach.

New Toucan crossing (for pedestrians and cyclists) on Barford Road near Barford Primary School.
