I cannot agree or disagree with the policy without knowing the detail. What is evident, however, is the apparent disregard of the health and safety of the residents in the areas affected by rough sleepers.

So, for example, in the area surrounding Five Ways, where rough sleeping and begging proliferates, regular break ins to flats and communal areas in the area takes place. This results in drug taking, vandalism, defecating and damage, all of which has to be cleared up at the expense of the residents concerned. All flats in the area have had in the last two or three years to increase security patrols, at great expense. The rough sleepers, if told to move on, are becoming increasingly aggressive, and without a police force capable of dealing with the situation places residents in danger.

We should all be able to peacefully enjoy our homes, and the rough sleepers are increasingly eroding that entitlement.

Please use box below if you would like to make any further comments:

All very laudable, but it has not produced any real visible affect on the ground. There are beggars (rough sleepers) now operating in numbers at many traffic light junctions in the City, far more than, say, two years ago. They then attempt most nights to break in to flat car parks and communal area to sleep, with disgusting and dangerous effect.
