

BIRMINGHAM CYCLE REVOLUTION - HAMSTEAD PARK AND CHERRY ORCHARD RECREATION GROUND

Consultation Results

No	Do you support the proposals?	If not, do you have an alternative route?	Comment
1	Partially Yes	Why does the western end finish at a "No Cycling" walkway from Hamstead Road through to The Greenway and Beauchamp Avenue? The route should carry on parallel to the walkway and end up at the entrance to the Greenway. From there cyclists and walkers can continue up along the River Tame path to the Sandwell Valley. Also, I trust the section after the railway bridge to the Perry Hall Playing Fields will be resurfaced, as it's a grassy muddy section at the moment!	New route follows the existing desire line and links the route to the train station. We are currently investigating linking this section of the route to River Tameway to Sandwell Valley Country Park. Also further improvement works have just been completed at Perry Hall Playing Fields
2	Yes	No comment	
3	Partially Yes	Excellent. BUT Crossing the old Walsall Road at this point is dangerous for families with children on bikes. Can we have a Toucan Crossing Please.	Highways engineers are currently looking into pedestrian crossing proposal at Hamstead Hill
