

NEWY GOODMAN PARK, LANDSCAPE IMPROVEMENTS.

It has been recognised that Hall Green has a major deficit in the provision of play and recreational facilities for young children.

We have been asked by the Parks and Nature Conservation Service to look at developing new recreational facilities in the Hall Green area. At present on the Newey Goodman Park site there are no recreational facilities of any merit.

We will be looking at possibilities for the provision of a play area for very small children and a multi use ball games court for those slightly older.

Early ideas presented to the recent Ward Committee meeting were favorably received and we are researching the costs involved. I attach for your information some images of the equipment which may be possible for the available budget.

If you would like to be involved in the community consultation and or know someone we should contact we would be very grateful for your comments and assistance.

We have been talking to local Councillors and plan to approach primary schools, churches, the local police and the youth service for their comments and involvement.

We hope to hear from you as soon as possible and will keep you informed of progress.
